

## RIDE FOR RATIONS 2016

“ Ride for Rations, a fund-raising effort initiated in 2011, has enabled a sustainable and consistent provision of the much needed food rations for the less well-off in our society. The programme has grown from strength to strength, benefitting 380 households which is an increase of more than five-folds when the programme commenced in 2011. Beyond numbers, the programme has enhanced nutritional value for the beneficiaries, provided a platform for volunteerism through the monthly rations distribution and raised awareness of the needy in our society. The grants by Tote Board have made it possible for Bike-Aid (Singapore) to help make a difference in the lives of the beneficiaries supported by Ride for Rations. ”
